

Non-Phone Threat Guide

For a threat received by email, social media, written note, or in person. Use the Bomb Threat Information Sheet (A10) instead for a phone call.

Email or Social Media

- ☐ Do not log out, delete, or forward the message
- ☐ Leave the message open on screen
- ☐ Screenshot it — subject, sender, date and time
- ☐ Notify the Incident Commander and Emergency Coordinator immediately

Written Note

- ☐ Do not handle it unless necessary
- ☐ If you must move it, use gloves or a bag — touch only the edges
- ☐ Note the date, time, and exact location found
- ☐ Secure it without altering it

In Person

- ☐ Stay calm — do not argue or challenge the person
- ☐ Record the exact words used, as close to verbatim as possible
- ☐ Note a description — build, clothing, accent, distinguishing features
- ☐ Note the exact time and place, then notify the IC immediately

General Rules — All Non-Phone Threats

- ☐ Do not automatically evacuate on receipt of the threat alone
- ☐ Wait for police guidance and the Incident Commander's decision
- ☐ Exception: evacuate immediately if there is a visible, credible, immediate hazard
- ☐ Do not discuss the threat with guests or on open radio channels
- ☐ External comms normally go via the IC, except in a life-threatening emergency: contact services directly, then notify the IC.
- ☐ Preserve any physical evidence exactly as found for the police
