

Medic / First Aid Leader

Primary function: casualty assessment and first aid within your training and scope.

You report to

Reports to the Operations Commander (OC); condition updates go to OC/IC.

First 0-3 minutes

- ☐ Ensure scene safety before entering.
- ☐ Take required PPE/medical kit.
- ☐ Assess casualty.
- ☐ Identify life-threatening conditions.
- ☐ Provide immediate first aid within training.
- ☐ Report casualty condition to OC/IC.

Next 3-10 minutes

- ☐ Continue stabilisation.
- ☐ Determine need for additional medical assistance.
- ☐ Prepare vitals/treatment information.
- ☐ Support medevac activation.
- ☐ Identify casualty collection/treatment area if multiple patients.

MEDICAL LIMIT

Only perform treatment for which you are trained, competent and authorised. ALS equipment is restricted to appropriately qualified medical professionals. Retain the approved 16:00 same-day medevac cutoff where relevant.

Ongoing responsibilities

- ☐ Continue monitoring and treatment within scope.
- ☐ Update OC/IC on casualty status regularly.
- ☐ Coordinate handover to external medical responders / medevac.
- ☐ Support additional casualties if the situation escalates.

Do not

- ☐ Do not treat beyond your training or authorisation.
- ☐ Do not use ALS equipment unless appropriately qualified.
- ☐ Do not delay life-saving first aid to complete paperwork.

Before All Clear / handover

- ☐ Confirm casualty handover / treatment status with OC/IC.
- ☐ Complete medical documentation.
- ☐ Support debrief with medical details.

Forms & tools to grab

- ☐ A6 Medevac Required Information
- ☐ A7 Medical Incident Form
- ☐ A18 Medical ICS Checklist
- ☐ A30 Snakebite Quick Guide where applicable
- ☐ A42 Trauma & Vitals
- ☐ A4 Priority Contacts

Remember

Scene safety first, then scope of practice. Stabilise, document, and hand over — you are not expected to be the hospital.
