

Spill Kit Contents Guide

PPE and containment items every spill kit should hold. Check monthly and after every use.

Personal Protective Equipment (PPE)

Item	Qty on hand	Condition	Restock needed?
Chemical-resistant gloves (pairs)			
Eye / face protection (goggles or face shield)			
Respirator / mask (per SDS)			
Chemical-resistant apron or coveralls			
Rubber boots			

Containment & Clean-Up

Item	Qty on hand	Condition	Restock needed?
Absorbent pads / socks / booms			
Absorbent granules / sand			
Neutralising agents (acid / base — per SDS only)			
Non-sparking scoop / dustpan & brush			
Sealable hazardous-waste bags / containers			
Hazard warning signage / cordon tape			
Safety Data Sheet (SDS) binder — on site			

Reminders

- ☐ Always check the SDS for the specific chemical before selecting PPE or a neutraliser — never guess.
- ☐ Restock immediately after any use; do not leave a kit partially filled.
- ☐ Store kits at every location where hazardous chemicals are used or kept.
