

Emergency Supplies Checklist

Minimum reserve levels for a 14-day self-sufficiency window, in line with the Country Shutdown protocol and Sphere/WHO humanitarian minimums, adapted for a remote lodge.

Category	Item	Recommended minimum	Qty on hand	Restock?
Water	Drinking & cooking	7.5 L / person / day (105 L / person over 14 days)		
Water	Hygiene & sanitation	7.5 L / person / day (105 L / person over 14 days)		
Food	Dry / non-perishable reserve	14-day supply per person on site		
Food	Frozen / chilled buffer	3–5 day supply, portion-controlled		
Fuel	Generator fuel	14-day supply at essential-hours schedule		
Fuel	Vehicle fuel	50% reserve threshold maintained at all times		
Medical	First aid kits	Fully stocked; checked weekly		
Medical	AMREF / Flying Doctors membership	Current, confirmed annually		
Communication	Satellite phone + spare battery	1 per property minimum, tested weekly		
Communication	VHF/HF radios + spares	1 per ICS role, plus spares, charged daily		
Lighting	Torches / headlamps	1 per team member on duty		
Lighting	Hurricane lamps (night airstrip lighting)	Per Medical Emergency evacuation protocol		
Sanitation	Sanitation & hygiene supplies	14-day reserve for staff and guests		

Water minimums reflect the Sphere Standards / WHO humanitarian benchmark of ~15 L per person per day in a sustained emergency (drinking, cooking, and basic hygiene combined). Adjust upward for guest-facing standards where practical.
